Experience

Operations Manager

Sodexo Sep 2022 - Present

- Delegates a team of 10+ employees to handle important operational tasks and enables them to use their subject-matter expertise to deliver critical inventory in a healthcare facility
- Utilize AI tools like Microsoft Co-Pilot to streamline drafting emails and responses, Excel spreadsheet optimization & data analysis, and creating word document & PowerPoint presentations. Streamlined processes allow for more meaningful face-to-face engagement with stakeholders
- Partner with senior leadership to plan and execute operational initiatives aligned with organizational strategy & compliance improvements
- Led the rollout of new linen automation equipment, reducing weekly linen spending by 40% (\$20,000 to \$12,000) through improved throughput and utilization. New equipment also increased user accountability, allowing for less inventory waste
- Implemented a digital inventory tracking system that improved accuracy, strengthened team accountability, and standardized inventory controls for both management and the team

Regional Operations Support Manager

Sodexo Aug 2021 - Sep 2022

- Oversaw operational performance across multiple healthcare sites, exceeding client satisfaction targets by 15% through service delivery improvements
- Acted as a key liaison between site leadership and regional stakeholders to align annual goals, initiatives, and performance expectations
- Led cross-functional teams to identify operational inefficiencies and implement process improvements, increasing overall effectiveness by 12%

- Supported workforce planning by conducting candidate screening and interviews, ensuring staffing alignment with operational needs

Patient Care Ambassador

Sodexo Dec 2009 – Aug 2021

- Delivered frontline patient services while supporting operational excellence in a regulated healthcare environment
- Improved patient satisfaction scores through consistent service quality and responsiveness to patient needs
- Ensured compliance with HACCP and JCAHO standards by monitoring health, safety, and sanitation procedures
- Optimized daily team assignments to improve staffing efficiency and adherence to healthcare safety regulations
